# Reminder of the purpose of CFAC...

**Community members play a key role in developing our long-term capital facilities plan and providing input on facility use to ensure the community's values and priorities are accurately represented.**

- Establish a broad and comprehensive Community Facilities Advisory Committee (CFAC) that will guide the development of recommendations to the Board on a Capital Facilities Plan and address/respond to building capacity issues.
- Guide CFAC membership through an analysis of the relevant capital planning data and enrollment projection data
- Solicit input from the CFAC on:
  - Responding to building capacity issues at schools for the 2023-24 school year and beyond
  - Facility usage and planning through 2031
- Host multiple community forums to review CFAC recommendations and seek community input
- Revise plans based on community input
- Make a formal recommendation to the Board of Directors by April 2023 for the 2023-2024 school year and beyond.

*Empowered to Learn!*

# Where are we now? Where are we going?

All CFAC Committee Meetings are from 5:30-7:30 p.m. at Port Susan Middle School
